LATEST FROM EUROPE.

London, Oct. 1st.

The following letter has been addressed by the Earl of Rosebery to the Imperial British East Africa Company.

Foreign Office, September 30.

Sir,

"The final determination of your Directors to evacuate Uganda on the 31st December next, which was notified to the late Government and accepted by them in May last, has engaged the earnest attention of her Majesty's Government.

"It being evident that the resources of the company are unequal to their continued occupation of Uganda, which has likewise been declared by the late Government to be arduous, if not impossible, in the present state of communication, her Majesty's Government adhere to the acceptation, by their predecessors of the principle of that evacuation.

"It having been, however, pressed upon them by various communications, especially in a recent telegram from Sir G. Portal that dangers may arise from immediate evacuation at the appointed time, her Majesty's Government are prepared to assist the Company by pecuniary contribution towards the cost of prolongation of the occupation for three months, up to the 31st March, on a scale not exceeding that of the present expenditure. It must, however, be distinctly understood that this measure is taken solely with a view to facilitate the safe evacuation by the Company, which is rendered necessary by their financial position; that the responsibility for the measures to be taken in carrying out the evacuation will rest with the Company alone; that the Government do not intend by this step to take upon themselves any of the liabilities incurred by the Company or their agents in respect of Uganda, or the surrounding territories.

Lisbon, Sept. 30.

A despatch was received here to-day from the Governor of Mozambique, who states that he has received intelligence from the Governor of the district of Antoche and from the British Consul confirming the report of the wreck of the launch Flor de Cubeha, which was conveying a party of German and English explorers and sportsmen up the River Moma, where they met with an unfavourable reception from the natives. The Governor declares that he is ignorant of the wreck or of the nationality of the shipwrecked craft. The British Consel attributes the disaster to an attack by Arab slavers, but up to the present no information tending to confirm this view has been received. The Governor ordered a Portuguese gunboat to cruise in the vicinity of the scene of the disaster, but the vessel had not succeeded in obtaining any information beyond that received from other sources.

Constantinople, Sept. 30th.

The Sultan has forwarded an Irade to the Grand Vizier, informing him that he proposes to senda Commission to Armenia to examine and report upon the condition of that country, and to learn what grievances exist. His Majesty has directed his Minister to consult with the Council of Minister and to furnish him with the names of two superior military officers, two civil functionaries, Moslems, and an equal number of Christians, to become members of the Commission. This step is valuable, as showing the intentions of the Sultan; but everything depends upon the character of the persons appointed.

Berlin, Sept. 30th.

The Military Bill has at last been submitted to the Federal Council, and whether it will be published before being submitted to Parliament will depend on their decision. All the statements so far published as to the demands of the Government are inaccurate. The increase in the army as proposed by Government will be very considerable. The "Kolnische Volkszeitung" states that not only the infantry, but all other branches of the army are to be augmented in proportion. Then new cavalry squadrons are to be formed, and the field artillery to be increased by 53 batteries and six battalions. Considering the secrecy hitherto maintained regarding the provisions of the Bill these assertions need confirmation no less than does the statement that the yearly military estimates are to be increased by sixty-five million marks, and that the extraordinary expenses will amount to eighty millions.

New York, 29th.

Mr. Cleveland, in a letter accepting his nomination as a candidate for the Presidency, says:—"With respect to currency questions, the people are entitled to sound and honest money abundantly sufficient in volume to supply their business needs; but whatever may be the form of the people's currency, national or State, whether gold, silver, or paper, it should be so regulated and guarded by Government action or wise and careful laws that no one can be deluded as to the certainty and stability of its value, Every dollar put into the hands of the people should be of the same intrinsic value or purchasing power. With this condition absolutely guaranteed both gold and silver can be safely utilised upon equal terms in the adjustment of our currency. In dealing with this subject no selfish scheme should be allowed to intervene, and no doubtful experiment should be attempted. The wants of our people arising from the deficiency or the imperfect distribution of money circulation ought to be fully and honestly recognised and effectually remedied. It should, however, be constantly remembered that the inconvenience or loss which might arise from such a situation can much more easily be borne than the universal distress which must follow a discredited currency."

NEW ENGLISH BANK OF THE RIVER PLATE.

The first ordinary meeting was held at the Cannon-street Hotel, under the presidency of Mr. Thomas Greenwood.

The Chairmen stated at the outset that the directors of the bank were Mr. Edward Gotto and Sir William Young (representing the shareholders), and Mr. Peebles, manager of the San Francisco Bank, Mr. Nicol Watson, Mr. Darley and himself (representing the creditors.)

According to the best estimates, there were assets in Buenos Ayres amounting to £2,100,000. The assets in London were estimated to produce £350,000, so that the total assets amounted to £2,450,000, which he underquoted at £2,000,000. The liabilities upon promissory notes would not be so large as he quoted them, because some of the liabilities had since run off, in consequence of settlements having been made in Buenos Ayres. The total would probably not be more than £870,000, and again taking the deposit notes at £750,000, they had a total liability of £1,620,000, leaving for the shareholders £830,000, which was almost the money which they would have contributed to the new company. In giving these figures, he had altogether excluded Montevideo, because the intelligence received from there had been of a very conflicting character. When, however, the Board had the information before them they would make the creditors in Montevideo an offer, which would depend largely, first, upon the available assets there likely to be realised, and, secondly, upon the time which these assets would take to realise. Pending negotiations he thought it would be unwise to discuss Montevideo further.

Perhaps the most satisfactory intelligence he had for them was that since 18th August there had been a very marked improvement in the financial condition of the company, so that a notice would be issued on Friday to all the creditors who had proved their claims that, upon application at the office of the company on or after the 30th inst., the first and second instalments due to them would be paid—(cheers)—and that after having provided for all their obligations known to them and expected to come against them up to the end of the year (Renewed cheers). The creditors had deposited with the bank considerable sums more, and the shareholders had deposited considerable sums—(applause)—but one of the latter stood out above the rest, for he had contributed not his quota of £4 per share but £20 per share. They asked him for £800, but he had deposited £4,000. (Cheers).

This operation was most advantageous to the company, because it enabled them to re-commence business, which they would do on the 1st October, eight days hence. (Cheers). It was advantageous to them not only in London, which was the smaller part of the business, but particularly in Buenos Ayres, where their re-opening would be hailed with delight. Already they had re-established a large confidence there by having paid every creditor 20s in the pound very promptly, and their position there was remarkably good. As they were about to recommence business, he should tell them that this company would not run on the lines of the old one. They would not make advances upon problematical securities, neither would they be disposed to discount goodwills, and to make advances upon private securities without a proper margin. To go in for speculative business would be unwise at any time, and certainly unwise with them now—with their small financial abilities. They would endeavour to make these profits safe.

In reply to questions, the Chairman said it was not intended to allow any of the directors, the secretary or the manager, to open a loan and current account. The amount of capital at present paid up was £831,000, and the calls to come in would probably bring this up to £900,000. The amount of capita lleft after paying the first and second instalment to the depositors would largely depend upon the amount of deposits made for the purpose. The £831,000 had been largely appropriated, first, to redeeming securities which were altogether free in Buenos Ayres, and, secondly, to helping to pay the first and second instalments to the depositors. It was not intended to issue notes as before After paying his £10 and £2 10s respectively every shareholder was absolutely free from all obligations both to the new company and the old.

A hearty vote of thanks to the chairman and directors. passed on the motion of Dr. Drysdale, terminated the proceedings.

OUR LONDON LETTER.

(From our own Correspondent.)

ODDS AND ENDS.

September, 28th.

There is trouble at the Metropolitan Tabernacle over the appointment of a pastor to succeed the late Mr. Charles Spurgeon. The choice of the faithful is divided between Dr. Pierson and Mr. Thomas Spurgeon, the son of the deceased pastor. A requisition was numerously signed in the vestibule of the building requesting the officers of the Tabernacle to call a special church meeting at which all possible information concerning Dr. Pierson and Mr. Thomas Spurgeon should be given, and that every member should have a circular letter sent to him or her stating for what purpose the meeting was called. This requisition caused amongst the friends of Dr. Pierson the liveliest feelings of disapproval and gave riso to unseemly altercations at the close of the evening prayer meeting on Sunday last. The Piersonites complained of the want of Christian spirit amongst the partisans of Mr. Thomas Spurgeon and threatened to turn the requisition and the people who were obtaining signatures to it out of the building. Dr. Pierson, it is contended, who was asked to officiate upon the decease of Mr. Charles Spurgeon, was not invited to accept the pastorate; and Mr. Thomas Spurgeon has recently shown such powers of eloquence that he seems to the congregation and to strangers to be his father again in the pulpit. It would, it is said, be a great loss to the Baptist Church which worships the name of Spurgeon were he not elected as pastor, with Mr. James Spurgeon, the late Mr. Spurgeon's brother, as co-pastor. Besides this family business there are doctrinal points in the balance. Mr. James Spurgeon and the officers of the Tabernacle are said to hold in their possession a letter from Dr. Pierson which states that he is and will always remain "a sprinkler" and further that he considers that a Baptist Church should have a Baptist minister. The gentleman whom I quote—Mr. A. Brookman, 22 Walworth Road, S.E.—says that the letter has been suppressed; and its suppression has given rise to the differences amongst the congregation.

It seems very discreditable to our military authorities that there should have been another instance of insubordination amongst our guardsmen and apparently from the same cause—the irritating conduct of officers. The disturbance this time took place in the C. squadron of the First Life Guards at Windsor. The Life Guards have always been a well-conducted regiment and have just won encomiums from their superior officers for their behaviour at Aldershot. The accounts given in the newspapers of the mutiny are, of course, said by the authorities to have been ridiculously exaggerated. Very likely they were; but the same was said of the Grenadier Guards before one of the battalions was shipped off to Bermuda. The overt act of insubordination seems in the present instance to have amounted to the cutting the panels of about 25 saddles; and this is said to have been the work of one man. The generality of the men deny that they were guilty of such a mean mischief. There remains another question—the hooting of one of the officers, Captain Rawson, who made himself obnoxious by irritating martinetism in a kit-inspection and demanding a second inspection. Sir Simon Lockhurt, who is in command of the regiment in the absence of Colonel the Hon. C. Byng, is popular and so are the other officers with the exception of Captain Rawson. The affair may turn out to be of little consequence, but a second occurrence of the kind in so short a period is a bad feature and excites suspicion in regard to the dilletantism of the service in the hands of "permanent" Royal Dukes. A very smart hand is now engaged in criticising the management of each of our public departments, about which I shall have something to report in a future letter. It is a popular superstition that whatever ministry is in power in this country, the government by permanent officials goes on with such skill and regularity and honesty that the administration by one or other cabinet is of comparatively small importance. To some extent and to the credit and honour of our officials this is in the main true; but cobwebs exist, and it will be the duty of the first really Radical administration to make serious reforms in our public departments. Permanent officialdom has its advantages and disadvantages. Perhaps of all the departments, the Horse Guards and War Office are most jammed by cross purposes and routine.

* * * *

Two or three remarkable criminal cases have just been decided. The first is known as the "Teddington Will Case." A Miss Margaret Josephine Smith and others forged a deed by which they attempted to defraud the executors of John Coraclius Pork, of Teddington, of £20,000. Smith got ten years' penal servitude for her pains. The others, whom she had led into the criminal proceedings, received various sentences from seven years' penal servitude to 12 months hard labour.

The other case was of more particular interest. It is known as the "Fraudulent Literary Societies Case." The principal in the affair was a pennyless scamp named Morgan who got eight years' penal servitude. His too weak or willing dupe, Sir Gilbert Campbell, an old soldier and baronet who had served in the Indian mutiny [days in the 92nd Highlanders, was punished with 18 months' hard labour. As he was hurried out of the dock, he kissed his hand to a lady in the gallery, who "wept copiously." You will have perhaps followed this "Charing Cross Publishing Company's" business, as it was exposed by that public benefactor Mr. Labouchere. The Company was instituted to assist struggling authors, some of whom sent their money and their manuscripts to the Company and never heard anything more of either. You must remember one of the first victims, who goes by the unfortunate name of Swindells.

Messrs. Beyts and Craig, merchants of London and Bombay, who forged bills of lading and got advances upon them to the extent of $60,000 from the Mercantile Bank of India, London and China, have been tried for conspiracy, and sentenced each to two years' hard labour. The law in its beauty takes no notice of the robbery of the bank, except that Mr. Commissioner Kerr in giving the sentences did observe that they ought to have been punished for the robbery.

As a small pendant to this list of middle class delinquencies, I may mention that Dr. Scott Saunders, director of the defunct Lyric club, who is alleged to have forged Lord Londesborough's signature to bills, has been examined and committed for trial under circumstances as stated in the evidence of a a very suspicious nature.

I have not yet heard the new Savoy opera "Hadden Hall," by Messrs. Grundy and Sullivan. Sir Arthur says it is an opera comique and the music must be judged as music for its own sake. From the critiques in the press it is evident that the music thus judged passes muster as Sullivanesque and always good of its kind, but without adding any fresh laurels to the popular composer's brow. Sullivan's constitution has been wrecked by a painful illness and his locks are already sprinkled with envious grey. It is satisfactory to hear that he is again friendly with his old colleague Mr. Gilbert, whose light and polished satirical style which did not require much grit or original effort in the music to set it off, suited Sullivan exactly. He cannot write opera; but we wish him health and strength to add to the list of Gilbert—Sullivan musical comedies, which in their way are unique and form a separate "genre" in the world's musical history. As for Mr. Grundy's share in the new opera he seems to have transferred the love suit and elopement of young Manners and the daughter of Sir George Vernon from the Elizabethan period to that of the commonwealth; for the sake of ridiculing puritanism and democracy. He is quite welcome to that now almost vulgar sycophancy of the literary herd; but what he has done is not well done. It is a bad imitation of Gilbert. The Scotch puritan he introduces with real bagpipes, and a spurious Northern dialect is universally condemed as silly and intrusive. What successes the opera may attain will be due to Sir Arthur Sullivan's pleasant and inoffensive music; and the opportunities Mr. Grundy has bestowed on scene painters, costumiers and ballet mistresses.

Yet a new "Varietes" company. The theatre is to be built in St. Martin's Lane. In the Company's prospectus there stares you in the face a list of dividends paid by London music halls and Variety theatre company last year. They vary from 10, 16, and 20 per cent to 70 per cent paid by the Empire! Why invest in South American descriptions?

PROVINCIAL NEWS.
THE INTERVENTOR IN SANTIAGO.

The lengthy telegrams received yesterday and on Sunday from the swampy seat of revolution are unquestionably of a reassuring tone. Grim-visaged war appears to have smoothed his wrinkled front and the winter of revolutionary discontent has been made glorious summer by the sun of San Isidro, which, we suppose, had we the terrible misfortunes to be under any but a republican form of government, would be Dr. Costa's title. The arrival of the Interventor in Santiago was marked by an outburst of popular enthusiasm and many people blessed the revolution which thus afforded them an opportunity of contemplating the bold and healthy features of so illustrious an Argentine as the ex-attorney-general. The Santiago ladies, with that sweet enthusiasm which is a characteristic attraction of the sex, crowned the Interventor with flowers, and would no doubt have embraced him but for the fear of violating the rules of propriety, which, together with a few companies of the line, is the only protection this learned, confirmed and still juvenile bachelor can rely on, while fulfilling his delicate mission at so considerable a distance from his relatives and friends in Buenos Ayres. That the Santiago ladies consider him a very desirable 'parti' may, moreover, be gathered from the fact that he was entertained at a ball on the very night of his arrival.

Leaving the question of the Interventor's eligibility aside and skipping over the heart-stirring circumstances of his reception by the Santiago ladies, the march of events may be seen in the following telegrams:—

Santiago del Estero, Oct. 30.—Yesterday morning, on receiving a telegram from the Interventor from Rosario, Governor Rojas sent a special messenger to Ruiz, telling him to immediately disarm and disband his men, as it was necessary to obey the Interventor. On receiving this order Ruiz and his men withdrew to a house owned by the Governor, some six leagues from the town, and there he began to disband his men. It was while he was engaged in this task that a body of revolutionists came on and began to attack them. Ruiz, with the few men he had left, offered resistance. Ruiz had the advantage of position, as the assailants could find no shelter. A sharp firing was kept up. The Interventor, on hearing of the encounter, sent an armed commission to the revolutionists to order them to lay down their arms. Just as Ruiz was preparing to assume the offensive, the Commission made their appearance and the fight was immediately suspended.

No one was killed, but there was one wounded on each side. Ruiz and his men laid down their arms on being called on to do so by the Commission.

On the arrival of the Interventor, Governor Rojas, on being released, withdrew unwell to his house, whence he sent despatches to the different authorities advising them that the Interventor had assumed the Governorship of the province.

The Governor paid a visit of courtesy to-day to the Interventor. Not a word was said about the situation.

The Governor expresses his surprise that the National Government delayed so much in decreeing intervention, although he seems very pleased that Dr. Costa was appointed interventor.

Santiago, Oct. 30th.—Mr. Pedro Garcia has just received an application from Dr. Bravo for more ammunition. Gimenez makes a similar demand. However there is no probability of hostilities being resumed.

One of the first steps of the Fiscal will be to draw up a "sumario" of the seditious movement by which the Government was upset.

In answer to Gimenez and Bravo Mr. Pedro Garcia has telegraphed them to lay down their arms and obey the Interventor.

The Revolutionary Junta paid a visit of courtesy to-day to the Interventor.

Santiago, Oct. 31st.—Dr. Bravo, Cabanillas, and Rios, who commanded the expedition against Ruiz, have arrived here. I have just spoken to Cabanillas, who has given me the following account of yesterday's fighting:—They came upon Ruiz and his men near Trinidad, at half past eight in the morning. Orders were immediately given to advance. They advanced in the form of a horse-shoe comprising 60 men, 32 being kept in reserve. Our firing caused the enemy's horses to bolt. Ruiz kept up sharp firing in reply. He and his men were in the main building. We made for an outhouse on occupying which we found 500 cartridges, besides boxes of sardines etc., all of which came in very handy. Ruiz and his men in the meantime came down to the sotano or cellar some forty yards away from us. We decided to attack the cellar. We knew nothing about the arrival of the Interventor.

It was at this juncture that the Commission arrived, ordering us to lay down our arms. We immediately suspended hostilities, Ruiz and his men came out of the cellar and, in obedience to the Interventor's orders, laid down their arms. They had something like 74 rifles. We did not lay down our arms. Immediately, as the Commission authorized us to keep them until we reached La Banda. Ruiz asked me to look for his watch and chain, which he had left in the hut. We could not find those articles, but I suppose they will turn up all right.

Santiago, Oct. 31st—I have just seen Ruiz. He will visit the Interventor tomorrow. He does not appear in the least fatigued. He tells me that he and his men laid down their arms yesterday at 3 p.m.: 74 rifles and 15 lances. His men were all active and fresh. The revolutionists took the outhouse because there were an old man and his wife in it. In obedience to orders disbanded his men. He had at one time 103 men. His intention, on arriving from B. Ayres was to lay siege to Santiago with 40) men whom Col. Maximio Ruiz had under his orders. Unfortunately the Colonel disbanded his men, and he was therefore compelled to recruit here and there. He was determined to save Rojas's life and vindicate the honor of the party.

Ruiz refused to disarm unless Bravo were likewise obliged to lay down his arms, as he was afraid that the Revolutionists would avail of the opportunity to exterminate them.

RAILWAY ITEMS.

The Inspector General of Railways recently applied to the Government to annul several concessions. The application was sent to the N. R. Board, who applied for the antecedents of the case. This conduct of the Government does not appear to have pleased the Inspector-General, who has just laid before Government a lengthy document, in which he questions the right of the Government to submit his application to the N. R. Board. He, moreover, dwells on the vital importance of his application which was calculated to save the Government an annual disbursement of $8,017,875 gold, say a total of $156,309,500 gold. The I. G. goes on to show that the error committed by Government has involved a delay of 3½ months, and the result of this delay so far has been—(1). By decree of 23rd September, an extension of time was granted to Mr. M. F. Soza, concessionaire of the proposed line from Goya to Lucero. In this way this gentleman has managed to escape the fine of $10,000 per month, say a total, up to date, of $90,000 gold due to the State. (2). By decree of 24th September, the Rivadavia-San Antonio de Areco concession, belonging to Messrs. Nouguier & Co. was annulled, and the forfeit-money, $20,000 returned to them. This concession was to expire on the 8th prox., and the forfeit-money would have gone to the State.

The I. G. goes on to say that the guaranteed concession, Resistencia to Metan, belonging to Messrs. Lanus, expired on the 12th inst. The guarantee on this line would amount to $8,017,975 gold per annum.

We have to thank Mr. Roberts, manager of the Western RR., for a neat and well got-up railway-map of the country. This map is the work of Mr. Renauld, who is on the staff of the railway. All the lines are clearly marked, and one glance suffices to take in the entire railway-system of the country.

The N. R. Board have reported favorably on an application filed by Messrs John G. Meiggs Son and Company for authority to hand over their wharf on the Parana to the Cordoba and Rosario Railway.

A LOVELY WOMAN
AND THE WOLF AT THE DOOR.

To all those who are earning an annual support, but have no accumulated capital laid by, and who have written to ask us if life insurance pays, we answer most emphatically in the affirmative. It is a good thing for a single man to maintain a policy in behalf of his estate, or of some one to whom he would like to leave a little legacy. But if a man has a relative whose comfort is dependent on his income, he has no right to neglect the provision for the future which life insurance offers. A friend of ours passed away only a few days ago after less than a week's illness. He has left a widow with two children. The former is a lovely woman, whose life has been one of radiant usefulness, but who has no head for business, and who could not earn a comfortable living by any method we could suggest. Her husband was a free liver and spent all his income, but devoted a part of it to keep alive thirty or forty thousand dollars of life insurance. The comfort of such a provision is incalculable. The sum the widow will receive, when well invested, is sufficient to keep the wolf from the door and to care for her family until they are of an age to earn their own support. Every bread-winner, man or woman, who has dependents that would be left destitute if the worker was taken away, ought to have as large a policy as can be maintained out of the annual earnings.—*N. Y. Journal of Commerce.*

CORRECTION.

B. Ayres, 31st Oct.

Mr. Editor,

Oblige me by mentioning in your valued paper that the paragraph in to-day's *Prensa*, stating that my wife, while riding at Escpeleta, had the misfortune to knock down and kill a poor little child, is entirely false from beginning to end.

I am
Yours truly,
George Brougham.

CONGRESS.
THE DEPUTIES.

The House met at 3.30 Dr. Gilbert in the chair.

Judge Pizarro's case was first taken up, and Deputies Pizarro, Lastra, Varela, Magnasco, Gomez, Alvarez and others tried their eloquent tongues on it.

The Bill, as proposed by Committee, (already published) was passed with some slight changes.

The Bill for a supplementary credit for the Port of the capital was voted, and the House rose at 4.30.

EDITOR'S TABLE.

Whoever wants to write a love or business letter to that windy and flourishing spot Stanley, capital of the Falkland Islands, can do so to-day, and has up to 3 p.m. to catch the post. H.M.S. Basilisk takes the bags.

The rain on Sunday stopped the races, but nothing else. There was a tremendous crowd at the Beer-party at the Argentine Brewery in Quilmes. The building has been much enlarged and improved since the Company started two years ago, and the beer has kept pace with the building in the march of improvement.

Nothing new from Santiago yesterday. The Interventor has put a stop to the fighting, and all the rest will be mere leather and prunella—dances, dinners and "discursos."

The doleful news ran round yesterday that Congress intends to sit all through the month of November. What to do?

The Asistencia Publica is in a mess for having locked up a gentleman as "cracked" when his head-piece is as sound as a bell. At least so his affectionate family say.

The P. M. G. is trying to put an end to the confounded old-woman fumigation of mails at Montevideo, which delays their delivery here so terribly. We hope he'll succeed against all the red tape and old ladies he has to deal with.

The indefatigable Phillips put up last week two new windmills at Villa Devoto, for the Quintas of Mr. John O. Hall and Mr. Casambon. The former will be the highest of the 18 now existing at the Village of the Heights, say 70 feet, Mr. Hall's Quinta covering 2½ acres, and containing an exceedingly varied collection of the most beautiful plants and flowers. Mr. Euring's new Quinta will adjoin that of Mr. John Clark. Those of Dr. Susini and Dr. Dominguez are now completed, but we question if the laboratories can do as much work as expected, all the microbes and bacteria having died from the dryness of the Devoto air. The School-board is about to complete the school-house. The Post office has been established under the care of the Pacific station-master, a very courteous and diligent official.

Peuser's Vade-Mecum for November was sent round yesterday. It has a brick-coloured cover this month. Very appropriate; as our friend Peuser is a regular brick, always has been, and always will be.

We are glad to welcome back to his post Dr. Juan Alsina, Chief Commissioner of Immigration, after his long spell of influenza.

Seventy thousand ounces are supposed to have been buried by a benefactor, unknown to the present generation, under the old and lucky STANDARD cellar in Calle San Martin, long abandoned now; but, passing to our present cellar, Mr. Augusto Kurzer, 522 Calle 25 de Mayo, the agent of the world-renowned aerated waters manufactured by F. Cunnington and Co., has kindly supplied us with samples of his delicious wares, which we feel bound to recommend to our numerous subscribers and readers for summer consumption.

The races suspended last Sunday come off to-day with the addition of the classic race "Handicap Argentino." It is hard to pick the winner, but Manoulescaut ought to do the job. First race starts at 12.30. Ormonde is as good as sold. Price £30,000, buyer Mr. Tattersall, London. This is the highest price paid for a horse yet.

The following telegrams are detained at the River Plate Telegraph Co., Calle San Martin 287:—From London for Butternut, from Santos for Salino, Seastareini, from Paris for Mattebert, from Cadiz for Mostazzone.

The American Church pic-nic will take place at San Isidro to-day. All friends are invited, as a good time is anticipated. A special train F. C. B. A. R. will start from Central at 9.40 a.m. re turning from San Isidro at 5.3 p.m.

The following are the big prizes drawn in the Montevidean Lottery yesterday: 9,895, 10,000; 11,789, 500; 12,823, and 12,614 200 each; 5,871, 6,898, 9,880, 12,426, 3,911, 5,896, 5,579, and 7,239 100 each.

We hear that the performance of Robertson's comedy of "Ours", which is announced for some night between the 23rd and 28th November, will take place in one of the large theatres of this city. The performers have been fortunate enough to get the Flores theatre for their rehearsals.

The Conde de Leopoldina, on his return to Rio de Janeiro, was victimised by a clever thief. Among the many persons who went on board the Segurance to welcome him, was an expert speculator in portable property. He effusively embraced the Conde, and at the same time abstracted a valuable watch from his pocket—as a memento of the occasion, of course. It is rather hard to take such an advantage of a man who has just returned to his family and friends—but the pickpocket, like others of his class, is not overburdened with much sentiment A similar case occurred here some time ago to a clergyman who was baptizing a child without making any charge. In return, the father stole his reverence's watch and chain while he was performing the ceremony.

In another column our readers will find the Programme of the concert to be given in the Lecture Hall at the American Church on Friday next. The programme is highly attractive,—solos by Misses Lee and Everley-Pope, and Messrs. Ruston, Colquhoun, Christian and Hill, in addition to choruses by the choir.

Don't miss the choral Union Concert to-morrow (Wednesday) evening in the "Operai Italiani" or you will regret it. "The Rose Maiden" is the best of Cowen's works and will prove a genuine musical treat. The soloists, as is already well known, are Miss Lumb, Miss Nicholson, Mrs. Showler, Mr. Higgins, Mr. Wilson, Mr. Showler and Mr. Mayne.

There will be an interesting Cricket Match played at Palermo to-day between the B. A. C. C. and United Rys: Play will commence on the arrival of the 10 05 a. m. train from Central.

Messrs. Risso Patron and Co. will open a general news-agency at the Boca on Thursday next; so we notify our readers in that Ligurian quarter, that they may patronize Mr. Patron.

The fortunate mortal who won the big prize in the Beneficencia Lottery drawn on the 20th ult is Mr. Peter Nuñez of Bragado, who bought the ticket from an old, blind "lotero" he met in Calle Piedras, at the corner of Mexico. Mr. N. had not turned up for his money up to Saturday last, and the blind man was "watching" for him at the door of the Administration every day since the drawing. A lady of the Folies Forlet won four fifths of the big prize in the following Lottery, and the other fifth fell to a poor woman who was made a present of it by a well-known lady. The Lottery Administration request us to warn the public against forged tickets.

A good slice of the English-speaking community is sure to be found at the Sports of Mr. Hutton's High School to-day. The prizes were displayed in the window of the Caledonian House yesterday, and attracted much public attention and admiration.

The Rosarinos got through a 7000 souls procession on Sunday without any assistance from knives and revolvers. President Peña sent them a telegram asking them to be good boys; and the result of his appeal was general good order and decorum.

Fra Diavolo again to-night at the San Martin with the "rentree" of tenor Annovazzi. On Thursday Carmen, with Bonazo and Tetrazzini.

There was a crowd of Notables at President Peña's reception on Saturday night. Of course everyone had something to say, but nothing very new, on the eternal subject of politics.

A far livelier place than the President's saloons was the Rural Society's diggings in Calle Cangallo, where a Flower Show was held on the same night. Mr. V. Peluffo took the Grand Prize, for the Queen of Flowers, the Rose. Mr. P. also showed a Green Rose, round which the ladies ohed! and ahed! with admiration all night. Everybody regretted the absence of Dr. Costa in Santiago, as his conservatories are amongst the finest in the country.

Lord Mayor Bollini's resignation has been officially accepted, and Mr. Michael Cane now takes the city reins. We salute him with effusion. A good diplomat ought to make a good Lord Mayor.

Never have we seen such enormous funeral wreaths prepared for all Souls Day as are displayed in the shop windows this year. They are the very essence of wanton extravagance and execrable taste. We note that the same thing is observed at Montevideo, and our esteemed colleague *El Bien* of that city publishes some justly severe remarks on the subject.

We learn on good authority that a special performance is being organised by the favourite Tomba Company at the San Martin theatre in favour of the British and American Benevolent Society, now so notoriously out at elbows. Those of our charitable readers desirous of combining virtue with pleasure should keep their spare dollars for this great event, which will come off within 10 or 12 days.

The "distinguido" class of society have taken up the new Skating Rink, and there were several well-known families amongst the three

the crowd, and the elimination of Messrs. Unzué and Luro from the list of directors has caused profound surprise in produce circles. Mr. Unzué is son of the founder of the firm, who narrowly escaped drowning in the bay of Montevideo 25 years ago. Mr Luro is also son of the founder of his great firm, and both these men might be considered as representative of camp interests; no wonder, therefore, that the people in the Plaza Constitucion and in the Central Produce market and in the Plaze Once de Setiembre discuss the matter with great animation, but the ever-changing turn of affairs brings to the front new men with the new times, and they say on 'Change that in such great questions as the improvement of the currency, men representing camp interests! are the least to be consulted. The news at the ring this morning was that Messrs. Estrada, Tornquist, Pereyra, Alcorte and Correa Morales were unwilling to accept the post of directors. Mr. Pereyra of course could not accept, owing to his connection with the Spanish Bank; but there is no good reason why Mr. Tornquist should not act and, we believe, he declines more in deference to the feeling that the German element is too much in the ascendant than anything else, which is a mistake, as the more Germanic we make the new bank the better. We hope to see it yet rise to the rank of the great London and River Plate Bank.

We take the following items from London *Financial Times* of the 23rd ult:—

"An encouraging statement was made at the statutory meeting of the New English Bank of the River Plate by Mr. Thomas Greenwood who presided. He announced that at the meeting of some of the largest shareholders on 18th August he over-estimated the liabilities and under-estimated the assets of the bank. Deducting the liabilities from the assets there was a balance of £830,000. A notice was about to be issued to the effect that the creditors who had proved their claims would be paid the first and second instalment due to them on and after the 30th inst. It was proposed to recommence business on 1st October.

"We are glad to learn from the proceedings at the statutory meeting of the New English Bank of the River Plate yesterday that the difficulties referred to in recent circulars have been overcome, and that banking business will be resumed on the 1st of October. It is a great pity that it should have been necessary to make an 'ad misericordiam' appeal to the shareholders and creditors, but we trust that all will now work smoothly and that the reconstruction scheme will not prove abortive, as at one time seemed likely.

"In the Foreign Market there has been some excitement in Argentines, just by way of compliment to the coming President. In certain quarters they have already got a cut-and-dried financial scheme ready to present to him. It proposes to continue payment in full on the Funding and the 1886 Loans, and to give the other loans half cash and half scrip for a further three years. But there are two parties yet to be heard from on the subject. One is the new Argentine Government and the other is the bondholders who are to be offered half cash and half scrip. The plan in question may very possibly reflect the views of very influential people, but as yet it can only be regarded as a basis for negotiation. The favour with which it has been received in the market proves, however, how strong a financial faith there still is in Argentina."

The Spanish engineer R. Parusna Berard left in the steamer Ladario for Matto Grosso to study the auriferous regions in those ports for account of a company known as the Minas de Guanandi.

Mr. Olmi, the popular auctioneer, will sell on Wednesday at 3 p.m some fine land in the province of Mendoza at the low upset price of $1.500% per league, say 60 cents per hectare. The land is situated in the Department Veinte Cinco de Mayo. We see in the plan that Don Emilio Wenk, the well-known jeweller, owns a large property alongside.

The Governor of Santa Fé has informed the Minister of the Interior that Mr. Lafaye has discovered a new process for the destruction of locusts. The inventor claims remuneration before revealing the secret, and, as the Santa Fé treasury is empty, the Governor appeals to the National Government to buy the secret for account of the Nation at large. Mr. Lafaye is willing to take two leagues of State land in exchange for the disclosure of his process. By all means give him one hundred leagues if his secret can save the colonists from the periodical scourge: or erect a statue in the midst of the colonies to the inventor; we very much fear, however, that the Locust would settle on the inventor's land and statue from bloom to bloom with the same regularity as the rotation of the seasons.

This being liquidation day, there was no second ring; to-morrow the Bolsa will remain closed owing to the Feast of All Saints. On Wednesday Mammon will again begin operations on the old time-honoured system of "moneda nacional" and time bargains. It has taken a long time to convince the authorities that decrees cannot fix the price of the legal tender: under the auspices of greater freedom of action, a bearish campaign is on the "tapis" and the market is inclined to favour it.

Mr. Richard Eastman has got hold of a beautiful piece of land in the Partido Lincoln, one square league, which he sells at auction on the 10th inst. at his auction mart, 383 Calle Reconquista; basis of sale 4,900$; plans of the land are being sent round. All the surrounding camps are owned by some of our oldest subscribers, all rich men. The land is sure to sell well, as the new branch of the Western Railway will run within a stone's throw of it.

The Finance Minister issued a decree to-day quashing the Noceti contract for paving the streets of the port. The Administrator of the Custom House is charged to say what work of this kind is required.

Paper Money.

Projectors every now and then start up with plans for curing all the economical evils of society by means of an unlimited issue of inconvertible paper. There is, in truth, a great charm in the idea. To be able to defray the expenses of government without taxation, and, in fine, to make the fortune of the whole community, is a brilliant prospect, when once a man is capable of believing that printing a few characters on bits of paper will do it. The philosopher's stone could not be expected to do more.

The substitution of Paper for metallic currency is a national gain: any further increase of Paper beyond this is but a form of robbery.—*John Stuart Mill on Inconvertible Paper Currency.*

Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Lamb. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infected sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb. Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil (25 o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25 o/o). 2 lbs. Carbolic Acid (95 o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

A SPLENDID PROPERTY

In the heart of the city

By dissolution of partnership

Magnificent position

1574—ALSINA—1574

between Lorea & Zeballos

8 3/4 yds. front by 55 deep

(altos y bajos)

18 rooms, solidly built IN TWO STORIES, tram at the door and corners.

Plastered ceilings and boarded floors.

The inch of land is worth gold in that locality.

Barely 10 squares from Plaza Victoria.

Two modern houses, in excellent condition, to produce a good monthly rent.

These houses have produced up to $600 per month.

The first story is actually let and gives $200 per month; the 2-stories can easily produce over $450 per month, and the upset price for the sale is

$22,000 m|n legales

!!! Ridiculous !!!

It is only by the chance of a dissolution of partnership that such an opportunity as this could arise, and it behooves all, rich and poor, men of business and speculators to take advantage of this occasion

The rich man: to live in a good quarter.

The poor man: to have a sure and positive source of income.

Business men: to speculate and quadruple their capital.

On Tuesday 1st of November

(Feastday)

at 4 o'clock sharp

I will proceed to sell by public auction by order of the owners with the upset price of $22,000 m/n, this magnificent property which can be seen any day from 8 o'clock a.m. to 6 p.m. Although the first story is let, the house can be freely visited.

The purchaser will pay 5 o/o when signing the boleto, as a guarantee of the purchase.

IMPORTANT AUCTION OF LAND

In the Province of

MENDOZA

10 square leagues of splendid camp in the Departamento 25 de Mayo

(formerly San Rafael), Prov. of Mendoza

Attention, Speculators.

On Wednesday November 2d

at 3 o'clock in the afternoon

In my Rooms

566—PIEDAD—566

I will offer for sale by order of the owner these 10 leagues of camp, say 25,000 hectares at the absurdly low basis of 0.60 (sixty) cents per hectare or fifteen hundred dollars m/n.

$1,500 m|n per square league

These camps are situated one league from Rio Diamante.

The camp is splendid for cattle, agriculture and vineyards. The projected railway from 9 de Julio (Province of Buenos Ayres) to San Rafael (Province of Mendoza) will soon pass through these camps, the earthworks being already made.

These are the best camps of 25 de Mayo bought years ago by Mrs. Nicolasa Ortega de Passo.

Contiguous to these camps are those of Messrs. Emilio Wenk, Eufemio Godoy, Elias Godoy, Nicolas Villanueva and N. Patry, who have paid 10 times more than the basis of $1,500 per league, for which I now offer for sale these camps. It is a good investment.

Purchasers have option to take 1 2, 3 or more leagues and even fractions of league.

The first purchaser will have the option to the ten leagues.

For plans, other details, informations and to inspect the title deeds which are perfect, please call at my offices

Campo en Córdoba

La mitad de la estancia denominada El Chato.

16,487 hectareas de magnifico campo dividido en 20 lotes de 625 hectareas cada uno y otro de 3987 hectareas. Campo de superior calidad para la agricultura. Rodeado de importantes Establecimientos formados en la Estacion Ausonia del F. C. de Villa Maria a la Carlota y Rufino, cruzado por el arroyo San Jose y conocida por de Cabral, de agua permanente.

Tiene la fortes de algarrobo y en el distrito existen los grandes alfalfares de los Funes, Diez y Ca. y las colonias de Dominguez, Ortiz, Ferreyra y otros. Con la infima base de pesos 10 hectarea.

El Viernes 4 de Noviembre a las 2 p.m. en nuestra casa Alsina 480 y 482, rematemos por orden terminante de su dueño, el magnifico campo mencionado, cuya ubicacion no puede ser mas importante, pues solo dista 3 leguas de las Estaciones Villa Maria y Ballesteros del F. C. C. Argentino e igual distancia de la gran Estacion Villa Nueva, cabecera del ferro-carril de este punto a la Carlota, y a solo 25 cuadras de la Estacion Ausonia del F. C. a Rufino.

Tenemos de este campo los mejores informes: hace 150 años que esta poblado; abunda la gramilla y el trebol; rodeado de Colonias é inmejorable para la agricultura. Actualmente hay 8 puestos arrendados sin contrato.

El arroyo Cabral que mencionamos no tiene ahora gran caudal de agua por estar estas interceptadas por un tajamar cuya destruccion no se ha pedida hasta ahora por estar salpicado de lagunas permanentes

Como se ve por los datos que dejamos expuestos, este campo reune condiciones inmejorables tanto por su calidad, pastos y aguadas, como por su ubicacion y faciles medios de viabilidad y transporte.

Llamamos por tanto la atencion de los gana
